FBI-King Section 35, serials 3334,3335 172 pp released

3335 is Chicago FO report of 5/10/68, period 4/5-5/3/63
The final date covered coincides with the date Jerry Ray left Chicago for St. Louis. Those reports prior to the ones on Ray are of the moth before the finishing of this report, most before the middle of April.

The Jerry part is long, detailed and typical Jerry, with the most childish and pointless lies the agents saw through fast when they did not have prior proof, which told them he was lying. He even lied about his marriages. It is he who seems to have tipped them off to John's interest in the Grapevine, apparently precluded under the law because of his criminal record. Jerry boasted of lying to protect John's $2500 interest in that bar. (p. 66)

None of case prints are Jerry's, p. 84.

How Jimmy got himself shot in Chicago, p.101.
